

## Personal Information

## Curriculum Vitae (June, 2026)

Goraw Goshu (PhD)  
P.O. Box 1701, Bahir Dar, Ethiopia  
+251910862033  
[goshugoraw@gmail.com](mailto:goshugoraw@gmail.com) / [Goraw.Goshu@bdu.edu.et](mailto:Goraw.Goshu@bdu.edu.et)  
Nationality: Ethiopian  
Gender: Male  
Marital Status: Married

## Executive Summary

Visionary institutional leader and Eco-hydrology, Water Resources and Environmental management expert with a PhD and over 28 years of professional experience managing multidisciplinary projects in water resources, environmental management, and climate resilience. Brings over a decade of executive leadership coordinating national and internationally funded projects, combined with extensive experience consulting for major international organizations (including IWMI and the Nile Basin Initiative). Currently serving as the Secretariat for the Tekeze Blue Hub Initiative, demonstrating proven capabilities in consortium governance, partnership management, proposal writing, and strategic leadership. Skilful at bridging scientific research, watershed management, and community impact to drive sustainable economic opportunities, livelihood improvement, and long-term programmatic success.

## Education

|            |                                                                                                |
|------------|------------------------------------------------------------------------------------------------|
| 2016 –2022 | PhD in Eco-hydrology & Water Quality Management, Wageningen University, Netherlands            |
| 2005–2007  | MSc in Environmental Science, IHE-Delft Institute for Water Education, UNESCO-IHE, Netherlands |
| 1995–1997  | BSc, Addis Ababa University, Ethiopia                                                          |

## Work Experience

### I. Employment Record (More than 28 years)

1997 – 1999     **Amhara Region Bureau of Education, Dega Damot Senior Secondary School, Feres Bet,**  
**Teacher**, teach Biology and Chemistry and participate in co-curricular activities

## II. Programme Leadership & Management (More than 10 years)

July 2023 – Present     *Director, Blue Nile Water Institute, Bahir Dar University (BDU), Ethiopia for the 2<sup>nd</sup> term*

Provide strategic, technical, and managerial leadership for multidisciplinary programmes in Integrated Water Resources Management (IWRM), hydrology, water quality, wetlands, and river basin ecosystem management. Direct overall coordination and quality assurance for seven research units and more than 54 researchers — Irrigation and Hydraulics; Hydrology and Watershed Management; Water Governance and Socioeconomics; Water, Sanitation and Health (WASH); Aquatic and Wetland Resources Management; Database and Training Coordination; and Central Laboratories Management—ensuring technical coherence, data interoperability, and compliance with international standards. Lead and manage strategic partnerships with UN agencies, international NGOs, research institutions, and development partners, and provide authoritative technical input to evidence-based policy development, basin-scale planning, and programme formulation. Support decision-making through applied research, hydrological and water quality monitoring, integrated databases, laboratory services, capacity development, and ecosystem-based approaches to sustainable water resources management.

June 2025 – Present     *Secretariat, Tekeze Blue Hub Initiative, Bahir Dar University (BDU), Ethiopia.*

Technically coordinate the development of concept notes, bylaws and strengthening partnership between eight universities, development partners such as UNICEF, Light Ethiopia and Yadam Foundation

Feb. 2011 – Oct. 2015     *Founding Director, Blue Nile Water Research Institute, Bahir Dar University (BDU), Ethiopia,*

Established the Institute's institutional framework, research portfolio, and external partnerships, strengthening national capacity in water, environment, and climate-related programmes. Provide strategic, technical, and managerial leadership for multidisciplinary programmes in Integrated Water Resources Management (IWRM), hydrology, water quality, wetlands, and river basin ecosystem management

March 2021 – 2024     *Coordinator, Aquatic and Wetland Ecosystems Management Research Unit, Blue Nile Water Institute, Bahir Dar University,*

Coordinated applied research and capacity-building activities on aquatic and wetland ecosystems, supporting evidence-based conservation and sustainable resource management.

Sep. 2010 – Sept. 2013     *Course Chair Holder, Aquatic Ecology and Water Quality Management College of Agriculture and Environmental Sciences, Bahir Dar University, Ethiopia,*

Led curriculum development, teaching coordination, and academic quality assurance for graduate-level training in aquatic ecology and water quality.

**June 2004 - Dec 2010** *Head, Limnology and Wetland Research Unit, Amhara Regional Agricultural Research Institute,*  
Managed research programs on freshwater and wetland ecosystems, supervising multidisciplinary teams

### III. Project Coordination & Management

**March 2025** **Project Coordinator**, Integrated Wetland Management for the five Wetlands in Abbay Basin; Infranz, Lumame, Kurt Bahir, Gudera and Alefa. **619,000 Euro**. Funded by Bright Project through NABU Ethiopia

**June 2023 - May 2027** **Principal Investigator**, Remote Sensing for Community-Driven Environmental Management (RS-4C) – Lake Tana Water Hyacinth Initiative, **100,000 Euro**. Led an internationally funded project applying remote sensing and co-learning approaches to support community-based invasive species management and sustainable water governance. **100,000 Euro**. Funded by the Dutch Ministry of Foreign Affairs through UNESCO-IHE, The Netherlands

**2022 - 2025/26** **Principal Investigator**, Ecological Health Assessment of Aquatic Ecosystems in the Lake Tana Basin, Ethiopia, **1330000 ETB** Directed the development of ecological health indices to assess rivers, wetlands, floodplains, and lakes, providing science-based evidence to inform conservation planning and sustainable water management. Funded by Bahir Dar University

**June 2007 - Jan. 2011** **Project Coordinator**, National Aquatic Ecology Research Program Coordinated multi-site aquatic ecology research to support sustainable fisheries, wetland conservation, and ecosystem-based resource management in Ethiopia. Amhara Regional Agricultural Research Institute, Bahir Dar

**2012 - Oct. 2015** **Project Coordinator**, CAPAQUA – Capacity Development for Sustainable Management of Aquatic Ecosystems in Eastern Africa Managed a regional capacity-building initiative, including a joint MSc program (Addis Ababa University & Bahir Dar University), strengthening human and institutional capacity in aquatic ecosystem and environmental management. **> 100,000 Euro**.

**2014** **Project Coordinator**, Capacity Building and Knowledge Transfer on Integrated Wetland Management – Proposed Lake Tana Biosphere Reserve, led training and knowledge-exchange activities with local institutions and stakeholders to support integrated wetland management and biosphere reserve planning. **80,000 Euro**. Funded by NABU

**2013** **Project Coordinator**, Integrated Wetland Management for the Proposed Lake Tana Biosphere Reserve Coordinated ecosystem-based wetland management interventions, contributing to conservation planning and stakeholder engagement for biosphere reserve designation. **80000 Euro**. Funded by NABU

**2013** **Project Coordinator**, Natural Resources and Socioeconomic Follow-Up Survey – Tana–Beles Integrated Water Resources Development Project, coordinated field-based assessments integrating natural resource conditions and socioeconomic indicators to support evidence-based water resources planning and development. **1.1 million**. World Bank-supported project

## Further Education and Training

| July- Aug.<br>(1998,2000,2<br>001) | <b>Biological Expedition group member</b> -work as co-investigator in Joint Ethio-Russian Biological Expedition group (JERBE),                                                                                                                                                                                                                       |

- Offer **Water and Waste Water Quality Modelling (WREE6342) PhD Course for Water Supply and Sanitation Engineering PhD Program, Faculty of Civil and Water Resources Engineering, Bahir Dar Institute of Technology, Bahir Dar University (2026)**
- Offer **Advanced Ecohydrology PhD Course for Aquatic Ecology and Wetland Management PhD Program, College of Agriculture and Environmental Sciences, Bahir Dar University (2026)**
- Offer **Aquatic & Wetland Ecosystems Modelling (AqWt 803) PhD Course for Aquatic Ecology and Wetland Management PhD Program, College of Agriculture and Environmental Sciences, Bahir Dar University (2026)**
- Offer Training course on **Hydrological and Water Quality Modelling in the Gumara Watershed (2025)**. The training is addressed to key Senior Experts of ANRS Bureau of Water and Energy interested in Hydrological and Water Quality modelling, Organized by ANRS Bureau of Water and Energy, **01-04 January, 2025, Bahir Dar, Ethiopia**
- Offer Training course on **Hydrological and Water Quality (AMR) Modelling in the Akakai Watershed (2023)**. The training is addressed to key Stakeholders (Such as Addis Ababa, Addis Ababa Science and Technology & Debre Birhan Universities, Ministry of Water and Energy, Federal Environmental Protection Authority, Addis Ababa Water Sewerage Authority etc.) interested in Hydrological and Water Quality (AMR bacteria) modelling. Organized by International Water Management Institute (IWMI), **26 - 27 December, 2023, Hawassa, Ethiopia**
- Offer Training course on **Initial ideas on Watershed modelling and monitoring to analyze loads, fate, transport and human exposure to microbiological pollutants via water flow pathways (2023)**. The training is addressed to key Stakeholders (Such as Addis Ababa, Addis Ababa Science and Technology, Debre Birhan Universities, Ministry of Water and Energy, Federal Environmental Protection Authority, Addis Ababa Water Sewerage Authority etc.) interested in Watershed modelling and monitoring Hydrological and Water Quality (AMR bacteria) modelling. Organized by International Water Management Institute (IWMI), **22 - 23, September, 2023, Addis Ababa, Ethiopia**
- **Water and Wastewater Quality Analysis (2016;2021,2022), For MSc students of Water Supply**

**and Sanitary Engineering, Bahir Dar Institute of Technology, Bahir Dar University**

- **Advanced Water Quality Management (2008, 2016,2024)**, For MSc students, College of Agriculture and Env'tl Sciences, Bahir Dar University
- **Water Quality Management (2009, 2016,2021,2022)**, For BSc students, College of Agriculture and Env'tl Sciences, Bahir Dar University
- **Offer Regional Training Course on Basic Water Quality Testing (2012)**. The course is addressed to Sub-Saharan African graduate and Ph.D. students from engineering and natural sciences departments interested in acquiring knowledge and practical experiences in basic water quality testing. Organized by **DAAD and Exceed**. April 16 – 21, 2012 / Bahir Dar, Ethiopia.
- **Offer Regional training to Eastern Nile Media (2018)**- The course is addressed to Eastern Nile journalists. Water hyacinth problem threatening Lake T ana, fundamental aspects of the water hyacinth problem such as biology of the plant; its spread rate; environmental-ecological conditions that facilitate rapid growth and spread; control approaches and methods; feasibility and/or limitations of mechanical control; short- and long-term control strategies envisaged; policies that enable community participation and ownership of the problem, and status and trends of wetland degradation and conversion. Organized by Eastern Nile Technical Regional Office (ENTRO), MiCT, 14-17 August 2018, Bahir Dar, Ethiopia.
- **Environmental Pollution and Management (2010)**, For BSc students of Natural Resources Management, College of Agriculture and Env'tl Sciences, Bahir Dar University
- **Introduction to Ecology and Environment (2010)**, For BSc students of Natural Resources Management, College of Agriculture and Env'tl Sciences, Bahir Dar University
- **Wetland Management**, For BSc students, College of Agriculture and Env'tl Sciences, Bahir Dar University
- **Aquatic Ecology**, For BSc students, College of Agriculture and Env'tl Sciences, Bahir Dar University
- **Function of wetlands**, for higher learning institutions and development practionaries, Bahir Dar, 25-27 January,2012
- **Advanced Limnology (2009)**. For MSc students, College of Agriculture and Env'tl Sciences, Bahir Dar University

*Supervised over 13 PhD, MSc, and BSc theses in areas including water resources management, watershed management, aquatic ecology, water quality modelling, eutrophication, and faecal sludge treatment (Wageningen University, Bahir Dar University, Addis Ababa University).*

- **Co-Promotor:** Banchiamlak Getnet. PhD thesis. The impacts of Pesticides on the Ecology and Ecosystem service delivery of Lake Tana Sub-basin, Ethiopia, Aquatic Ecology and Water Quality Management group (AEW), Wageningen University.
- **Co-Promotor:** Lakachew Yihunie. PhD thesis. Co-development of Remote Sensing-Derived Tools for Community-Based Monitoring of Water Hyacinth Invasion and water quality Monitoring in Lake Tana, Ethiopia. Water Supply and Sanitary Engineering, BIT, Bahir Dar University
- **Major Advisor:** Hebrework Menberu. MSc thesis. Assessing Water Quality and Predictive Power of Risk of Contamination Scoring in Bahir Dar City and its Peri-urban Wells, Water Supply and Sanitary Engineering, BIT, Bahir Dar University
- **Major Advisor:** Bethlem Estifanos. MSc thesis. Performance evaluation of moving bed biofilm reactor (mbbr) wastewater treatment plant: the case of Gamby general teaching hospital, Bahir Dar. Water Supply and Sanitary Engineering, BIT, Bahir Dar University
- **Major Advisor.** Solomon Almaw MSc thesis. Drinking Water Sustainability in Meket Woreda, North Wollo Zone, Ethiopia. Water Supply and Sanitary Engineering, BIT, Bahir Dar University
- **Major Advisor:** Chalachew Amogne. MSc thesis. Assessment of the Performance of Faecal Sludge Treatment Plant and Possible Application of Dried Sludge: Case study of Finote Selam Faecal Sludge Treatment Plant. Water Supply and Sanitary Engineering, BIT, Bahir Dar University
- **Major Advisor.** Washihun Habtemariam. MSc thesis. Assessment of Groundwater Quality and Risk of Contamination of Boreholes in Injbara Town, Ethiopia. Water Supply and Sanitary Engineering, BIT, Bahir Dar University.
- **Major Advisor.** Washihun Habtemariam. MSc thesis. Factors affecting sustainability of water supply system of Zegie Town. Water Supply and Sanitary Engineering, BIT, Bahir Dar University

**Professional  
Licences/Certificate  
of competence**

- **Micha Veenendaal**, BSc thesis, June 2021. Eutrophication of Lake Tana, Ethiopia: Quantification of the water balance and nutrient status of a large tropical lake, Aquatic Ecology and Water Quality Management group (AEW), Wageningen University
- **Hirut Germew**, MSc thesis, June 2014. Proximate analysis and determination of heavy metal concentration from sediment, water and fish in Lake Tana, Ethiopia, Center for food science and nutrition, Addis Ababa University
- **Banchiamlak Getinet**, MSc thesis, Jan. 2014. Impact of water hyacinth (*Eichhornia crassipes*) on water quality in the north eastern part of lake tana, Ethiopia, Department of Fisheries, Wetland and Wild Life Management, Bahir Dar University
- **Delnsa Gashaye**, MSc thesis, June 2011, Temporal and spatial phytoplankton biomass dynamics in southern Gulf of Lake Tana, North-western Ethiopia, Department of Biology, Bahir Dar University
- **Teklwold Birhanu**, MSc thesis, June 2010. Assessment of Downstream Pollution Profiles of Major Factories Effluent along the Borkena River, Kombolcha town, Ethiopia, Department of Fisheries, Wetland and Wild Life Management, Bahir Dar University
- **Senior Analyst – Water Resource Utilization**  
Amhara National Regional State (ANRS) Environment, Forest and Wildlife Protection and Development Authority  
Provided technical analysis and policy support on sustainable water resource utilization, contributing to regional environmental planning and natural resource governance.
- **Senior Analyst – Water Quality** ANRS Bureau of Water, Irrigation and Energy Development Led water quality assessment and monitoring activities, supporting safe water use, environmental protection, and evidence-based decision-making.
- **Senior Analyst** – Environmental Health ANRS Environment, Forest and Wildlife Protection and Development Authority  
Conducted environmental health assessments and supported regulatory compliance related to water, ecosystems, and public health protection
- **Greenhouse Gas Measurement, Reporting and Verification (MRV)** – ISO 14064 Certificate No. KBS/ISO

## Awards

- **PhD scholarship-2015-NUFFIC**
- **MSc scholarship-2005-NUFFIC and ADC**
- **One of the best paper award- 2012-Ministry of Urban Development, Housing and Construction of Ethiopia**
- **High performance-research institute Director-2011-Bahir Dar University**

## Personal skills and competences

|         |                                                                              |
|---------|------------------------------------------------------------------------------|
| English | Speaking/Reading/Writing/Listening<br>Fluent/Excellent/ Excellent/ Excellent |
| Amharic | Speaking/Reading/Writing/Listening<br>Fluent/Excellent/ Excellent/ Excellent |

## SKILLS AND COMPETENCIES

- Strong leadership and institutional management skills (Director two terms, coordinator, head and course chair)
- Excellent communication and relationship-building abilities (International conferences, Workshops)
- Strong project planning and coordination skills (secretariat, director, Researcher)
- Experience in research supervision and scientific collaboration (MSc/PhD students Advisor)
- Proposal writing and resource mobilization experience (Researcher)
- Good analytical, reporting, and problem-solving skills (Publications)
- Ability to work with multidisciplinary and multicultural teams (Director)
- Commitment to teamwork, innovation, and community impact (Many Projects coordinator)
- Laboratory Analysis
- Data Analysis
- Event Coordination & High-Level Engagement skill. Successfully organized and facilitated **more than 11** international, national, and regional workshops, including high-level policy dialogues attended by Heads of State, ministers, senior government officials, and international partners.

- **Communication & Teamwork:** Demonstrated excellent communication, negotiation, and teamwork skills in multicultural and international settings, fostering effective collaboration among governments, UN agencies, academia, NGOs, and development partners.
- **Results & Quality Focus:** Highly results-oriented and detail-focused, with the ability to maintain a strategic overview while ensuring accuracy, quality control, and timely delivery of complex technical and programme outputs
- **Ability to express ideas or debate based on arguments,** Excellent ability of communication and teamwork in international environments, Meticulous worker with focus on general ideas but also able to enhance small details. Ability to express ideas or debate based on arguments.

### Specialized software

- **Water and Environmental Modelling:** DUFLOW, PCLake+, MARINA, SWAT (hydrological and water quality modelling at catchment and basin scales).
- **Geospatial Analysis & Remote Sensing:** GIS and Remote Sensing applications for water resources, ecosystem assessment, and environmental monitoring.
- **Data Analysis & Programming:** Basic Python programming for data processing and analysis; advanced use of Microsoft Excel for data management, analysis, and reporting. SPSS, KOBObcollect

### Publications Peer reviewed articles

*Over 53 scientific productions of which 40 are peer reviewed articles and over 13 are reports or proceedings that have contributed to sustainable management of water resources, environment, watershed and water quality management*

1. Abathun Ashenef, Mengistu Asmamaw, **Goraw Goshu**, Chalachew A. Mulatu and Ayalew Wondie. Analyzing the Hydrological Implications of Morphometric Parameters in the Infranz Watershed and its Riverine Wetlands, Lake Tana Sub-basin, Northwestern Ethiopia. Accepted on 26 May 2026 to be published in Water Practice and Technology
2. Taddese F, **Goshu G**, Hoeck I. Qualitative insights into the fish value chain: a case study of Sehal District, North Ethiopia. Fisheries and Aquatic Sciences. 2026;29(4):236-48.
3. Alemneh, L.Y., **Goshu G.**, Ayele, Z.B., Adgo, T., Mulatu, C.A., Anteneh, Z.L., Aklog, D., & Asress, S. (2025). Recycling industrial sludge in low-cost construction: a sustainable approach using compressed stabilized earth blocks. *Water Practice & Technology*.
4. Asres S, Taffese T, Firiew Z, Yihunie L, **Goshu G**. A review of reservoir sedimentation and water storage losses in the Ethiopian highlands. Discover Sustainability. 2025 Oct 6;6(1):1023.

5. Alemneh LY, Aklog D, Griensven AV, **Goshu G**, Yalew S, Abebe WB, Dersseh MG, Mhired DA, Michailovsky CI, Amare S, Asress S. Remote Sensing Approaches for Water Hyacinth and Water Quality Monitoring: Global Trends, Techniques, and Applications. *Water*. 2025 Aug 31;17(17):2573.

**Presentations at  
National/ International  
conferences (Selected)**

53. Ayalew W. and Goraw G. 2004. "Seasonal Variations in Primary Productivity and Plankton Biomass in Lake Tana". Internal Report submitted to Ethiopian Agricultural Research Organization.

*Over 20 oral presentations at international (USA, China, Germany, Austria, Netherlands, South Africa, Kenya etc.) and national levels*

1. **Goraw Goshu.** Tekeze Blue Hub Initiative: Progress, bylaw signing and program office launching. 3rd Consultative Workshop. Organized by Yadam Foundation in collaboration with UNICEF. 23 May 2026, **Sheraton Hotel, Addis Ababa, Ethiopia**
2. **Goraw Goshu.** Blue Hub for Sustainable Economy & Nutrition in Tekeze: Stakeholders' Consultative Workshop. Organized by Yadam Foundation in collaboration with UN & UNICEF and Light Ethiopia. 24 Nov 2025, **Radisson Blu Hotel, Addis Ababa, Ethiopia**
3. **Goraw et al., 2025.** Water Resources Potential and Challenges: Integrated Modeling of E. coli Contamination in an Urbanizing Akaki Watershed, Ethiopia International Conference On "Integrated Water Management for Enhanced Resilience to Scarcity" hosted by Stellenbosch University, South Africa. 11-13 Nov.2025, Stellenbosch University, Stellenbosch, South Africa.
4. **Goraw et al., 2025.** Integrated Modeling of E. coli Contamination in an Urbanizing Watershed: A One Health Approach from Akaki Watershed, Ethiopia. International Conference on Health, organized by Addis Ababa University and hosted by the Africa Center of Excellence for Water Management (ACEWM) in collaboration with the NORHED II Project and the International Association for Hydro-Environment Engineering and Research (IAHR) – Ethiopia Chapter.15-16 September, 2025, Capital Hotel, Addis Ababa, Ethiopia
5. **Goraw G.** Modelling Seasonal River Export of Nutrients to Lake Tana, Upper Blue Nile, Ethiopia. Global Seminar at the 2025 International conference. Global Seminar on Chemical Pollution Monitoring under Low-Capacity Settings, Leipzig, Germany, 17–19 Sept 2025
6. Goraw G, Modelling Seasonal River Export of Nutrients to Lake Tana, Upper Blue Nile at the 2020 International conference on the Nile and GERD held virtually from August 20- 21, 2020.Florida International University, Institute of Environment, USA
7. Goraw G, Challenges of Water Resources Management in L. Tana Basin: The need for a PhD research project. 12 May,2016 Wageningen University, The Netherlands
8. Goraw G, Challenges of Ecosystems Management in Lake Tana Basin, Ethiopia. IPGL 40 th year Anniversary, Austria, Vienna Sep. 2015 4.

9. Goraw G, Overview of Lake Tana Basin; with special emphasis on Water Quality Deterioration. 2013 Watershed Management Workshop.14-21 July, 2013.Tarleton State University. Texas, USA.
10. Goraw G, 2012.Water Quality Deterioration and Proliferation of floating water hyacinth, Eichhornia crassipes in Major River mouths of Lake Tana, upper Blue Nile. National awareness creation and hands on workshop on" Wetlands for sustainable development and climate change mitigation". water and water related research center, Bahir Dar university.25-27 Jan.2012 6.
11. Goraw G, 2011.Anthropogenic faecal and chemical pollution impact on ecosystem and public health, Bahir Dar Gulf of Lake Tana, Northern Ethiopia. Awareness creation workshop on "The challenges and opportunities of Water Quality Management in Tana sub-Basin".16 June, 2011 Bahir Dar, Ethiopia
12. Goraw G, The use of environmentally friendly biotechnology, free water surface constructed wetland (FWS-CW), for the treatment of waste water in Southern gulf of Lake Tana, Bahir Dar. Environmental workshop. Institute of Land Administration, Bahir Dar University. May 17, 2011, Bahir Dar.
13. Ilona Gagala, Goraw G, Katarzyna Izydorczy k1, Tomasz Jurczak2, Joanna MankiewiczBoczek1,2 Maciej Zalewski1. "Detection of toxigenic cyanobacteria in Bahir Dar Gulf of Lake Tana" – pilot study. 2011.The 3rd Ethiopian Fisheries and Aquatic Science conference." February 05 - 06, 2011, Haramya University, Ethiopia.
14. Teklwold Birhanu, Goraw G, and Ayalew W. 2011. "Assessment of Downstream Pollution Profiles of Major Factories Effluent along Borkena River, Kombolcha town, Ethiopia". A research paper presented at Ambo University, 10-13 Feb.2011.
15. Berihun Tefera and Goraw G,2011. Technology Development and Dissemination Where There is No Cultural Practice: Lessons from On Farm Aquaculture Research in Amhara Region, North West Ethiopia. Paper presented at the 3rd Annual conference of the Ethiopian Fisheries and Aquatic Sciences Association (EFASA) on 4 February 2011, Haremaya University, Ethiopia.
16. Goraw G, and Berihun Tefera. 2009. Spatial and Temporal Distribution of Commercially Important Fish Species of Lake Tana, Ethiopia. Paper presented at an international symposium on "Ecohydrology for water ecosystems and society in Ethiopia", jointly organized by the Ethiopian ministry of water resource and foreign affairs of the republic of Poland from 18 – 20 November 2009, Addis Ababa, Ethiopia.
17. Goraw G, Andreas F., Byamukama D., and Manafi M.2009. Level of faecal and chemical pollution in Bahir Dar Gulf of Lake Tana, Ethiopia. Paper presented at an international symposium on "Ecohydrology for water ecosystems and society in Ethiopia", jointly organized by the Ethiopian ministry of water resource and foreign affairs of the republic of Poland from 18 – 20 November 2009, Addis Ababa, Ethiopia.

18. Goraw G,2010. "Biophysical and Chemical Characterization of High-Altitude Aquaculture Research Ponds of East Gojjam, Ethiopia". ARARI 3rd regional annual completed research forum.
14. K.F. Dzerzhinsky, D.D. Zworykin, B. A. Levin & Goraw G, "On the Riverine Spawning of the Lake Tana 'large barbs': eggs' samples analysis and results of experimental rearing.2008 ". Poster presentations on IV pan Africa Fish and Fisheries Association conference. Addis Ababa University, Ethiopia
19. Goraw G, 2008. Assessment of Microbial Safety of Traditional Hand-dug Wells and Protected Hand Pumps in Bahir Dar and Peri-Urban Areas, Northern Ethiopia. Research paper presented to 26th annual Educational Seminar (May seminar 2008) of Bahir Dar University, Faculty of Education, 06 - 10, May 2008.Bahirdar, Ethiopia
20. Berihun Tefera & Goraw Goshu. 2011. Technology Development & Dissemination Where There is No Cultural Practice: Lessons from On Farm Aquaculture Research in Amhara Region, North West Ethiopia. Paper presented at the 3rd Annual conference of the Ethiopian Fisheries & Aquatic Sciences Association (EFASA) on 4 February 2011, Haremaya University, Ethiopia
21. Goraw Goshu & Berihun Tefera. 2009. Spatial & Temporal Distribution of Commercially Important Fish Species of Lake Tana, Ethiopia. Paper presented at an international symposium on "Ecohydrology for water ecosystems & society in Ethiopia", jointly organized by the Ethiopian ministry of water resource & foreign affairs of the republic of Poland from 18 – 20 November 2009, Addis Ababa, Ethiopia

### Professional Membership

1. Member of the International Panel of Chemical Pollution (IPCP) working group
2. Executive Committee and Young fellow, Ethiopian Young Academy of Science
3. Member of Eastern Africa Water Association (EAWA)
4. Member of the Biological Society of Ethiopia (BSE)
5. Member of Ethiopian Fisheries & Aquatic Sciences Association (EFASA)
6. Life Long member of Ethiopian Red Cross society
7. American society of Microbiology (ASM)

### WORK INTEREST

I am interested in research thematic areas such as modelling nutrient and bacteria export from watershed, water quality modelling and water resource management. environmental health and management, aquatic and wetland ecosystem health indexes development, establishing environmental flow condition,
